

Reference Life save equipment for offshore oil rigs and ships

Purchaser
Lukoil, Gazprom (RU)

J.H.K. service
Development concept and manufacture of evacuation units

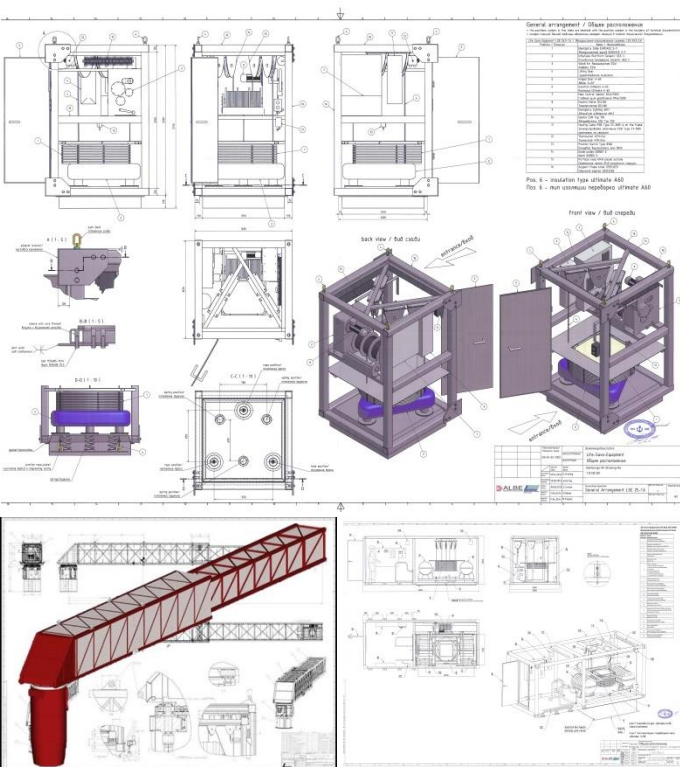

Venue
Bremerhaven, Germany

Project period
09/2015- 02/2016

In maritime shipping and in the offshore industry it is of high priority that the safety equipment for emergencies always functions properly. We supply you with tailor-made evacuation systems being certified according to the latest requirements. Among professional solutions for maritime safety and fire protection our offer includes the maintenance and repair by qualified specialists.

We have got a separate test bench where our customers may try the evacuation possibilities. A real water test is also possible and has already been done several times in the presence of classification companies like RMRS.
