

## Reference

# Corrosion protection of complete systems

### Purchaser

North-German gas provider

### J.H.K. service

Renovation

### Venue

Germany

### Project period

2017

For the repair of their plants our customers, a North-German gas provider, counted on our expertise in corrosion protection. Here our specialists in the field of mobile blasting and coating processes were in demand. We convince our customers by new coatings in the corrosion protection with complete gas distribution units, pump stations, pressure-increase systems.

Oil and gas
